ETHICS APPLICATION - FORM A

1. Project/ Thesis Title: Beyond Optical PPG: Adaptive mmWave Radar Arterial Pulse Sensing			
2. Chief Investigator/ Principal Supervisor (University of Moratuwa academic staff only)			
Name:	Dr. Sampath Perera	Phone:	
Position:	Senior Lecturer	Email:	
Academic Title / Qualification:		Department :	Department of Electronic and Telecommunication Engineering
Position / Other Affiliations Relevant to this Application:		Staff No:	
Candidate or Investigator 2(If appropriate)			
Name:	Dr. Joshua Pranjeevan Kulasingham	Phone:	
Position:	Senior Lecturer	Email:	
Academic Title / Qualification:		Mob ph:	
Position / Other Affiliations Relevant to this Application:		Department :	Department of Electronic and Telecommunication Engineering
		Staff No:	
3. Project/ Degree Course Duration:	Project/Degree commences: July 2026 Project/Degree concludes: May 2027		

4 PROJECT
(a) Type of Project (tick whichever is applicable)

- ☐ Research by Academic Staff Member
- ☐ Postgraduate Research (research by Masters/ MPhil / PhD)
- ☒ Other (please specify).....Undergraduate Final Year Project.....

(b) Please attach your complete research proposal

5 Declaration**5.1 X I declare that I have read the general ethics guidelines.****5.2**

Please indicate below if your research involves the following situations where there is no foreseeable risk of harm or discomfort listed in the low-risk categorization.		YES	NO
i.	Data from feedback surveys and quality assurance studies which only ask questions about a system, program, service or organisation under assessment and do not make comment on the individual recipients, clients, students or users.	☐	X
ii.	Research involving the use of questionnaires administered appropriately to normal adult populations, and where data are recorded in such a manner that the participants are not and cannot be identified.	X	☐
iii.	Research or evaluative procedures involving observation of public behaviour on unidentified participants, where data are recorded in such a manner that participants are not and cannot be identified.	☐	X
iv.	Research carried out in an educational setting using groups of participants, rather than individual participants and where data are recorded in such a manner that participants are not and cannot be identified.	☐	X

5.3

Please indicate below if your research involves the following ethical issues listed in the above low-risk categorization.		YES	NO
i.	Research that may cause discomfort, either physical, psychological or social beyond normal levels of inconvenience.	☐	X
ii.	Uses intrusive techniques, including some personality assessment tests.	☐	X
iii.	Examines potentially sensitive or contentious topics or themes, such as studies of body image or personal health habits.	☐	X
iv.	Involves qualifying the conditions of consent, such as circumstances where the purpose of the study is not fully disclosed to participants.	☐	X
v.	Uses therapeutic techniques.	☐	X
vi.	Involves secondary use of identifiable specimens or data collected for another study or purpose.	☐	X
vii.	Involves the collection, use or disclosure of identified personal, health or sensitive information without the consent of the individuals in question.	☐	X
viii.	Seeks disclosure of information that may be prejudicial to participants, for example, which has the potential to be incriminating.	☐	X
ix.	Involves any physical intervention or removal of body fluids or tissues, such as blood or urine samples, biopsies.	☐	X
x.	Involves a fertilised human ovum.	☐	X
xi.	Involves a clinical trial of any drug, therapeutic product or biomaterial.	☐	X
xii.	Involves any stimuli, tasks, investigations or procedures which may be experienced by participants as stressful, noxious, aversive or unpleasant during or after the research procedures.	☐	X
xiii.	Involves in DNA 'fingerprinted', or have any other kind of uniquely identifying biological marker recorded.	☐	X
xiv.	Uses a highly vulnerable participant population, for example - intellectually disabled individuals, people who have undergone trauma, psychologically disturbed individuals	☐	X
xv.	Involves animals in the research project	☐	X

5.4 Please indicate if there are other potential ethical issues not listed in 5.2 or 5.3 above involved in our research. -----
